RE: Comments on PRPs Response
on Remedial Investigation

Dear Dr. Krueger:

Attached please find a copy of the comments prepared by Dames & Moore for the PRPs concerning the Maryland Sand, Gravel, and Stone Remedial Investigation, Phase II. EPA's comments are in handwriting in red in the margins of the comments provided by Dames & Moore. There are a few issues on which I will have to get back to you: see pages 3, 6, and 22.

I am also having EPA Environmental Monitoring Systems Laboratory, Las Vegas, Nevada, review the slug test data and chemical data in the Remedial Investigation. I will forward to you their comments as soon as they are available.

Should you have any questions concerning the comments, please call me at 215-597-0531. Questions concerning the risk assessment may be addressed to Dr. Bruce Molholt, 215-597-6682.

Sincerely,

Sharon Feldstein
